Subject: Hello from Alaska

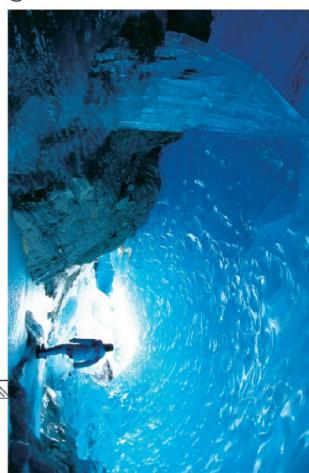

Hello Hiro,

I've been in Juneau for three days. Juneau is the capital city of Alaska. It's surrounded by mountains and the sea.

My uncle has lived here since he was young.

I went to a famous cave yesterday. It's under a glacier about 19 kilometers from Juneau. The cave was formed because the ice melted. The whole cave is a beautiful blue color. That's the color of the sunlight through the glacier.

Tomorrow, I'm going to go whale watching with my uncle.
I'm really looking forward to it.

Talk to you later,

Ben
