

Saturday, July 23

Today we had our last game. The other team was one of the best in the tournament. It was a close game, but we lost. I'm really sad, but we did our best.

My teammates and I shared good times and bad times. When practice was hard, we supported each other.

I can't believe our junior high basketball days have already ended. That makes me sad. But our school life hasn't finished yet. I'm sure that we'll be friends forever.

Q How does Miku feel about the end of her junior high basketball days?
